

Masterpiece Biblical Counseling Statement of Financial Responsibility

Masterpiece Biblical Counseling (MBC) provides Biblical counseling and Biblical coaching.

People who participate financially in the benefits they receive are more successful in achieving their goals than those who do not participate. MBC strongly believes that every person who is financially able and is receiving services should participate financially in the cost of the services provided.

MBC understands that not all clients receiving services can pay for such services. As a charitable organization, MBC ensures that no client is turned away for inability to contribute to their care.

MBC operates through the generous contributions of donors and those who partake of our services.

Intake Appointment

The initial appointment for any service is provided at no cost to clients.

Agreement

I have read the above information and understand the financial responsibility of a client receiving services at Masterpiece Biblical Counseling. In seeking the services offered by MBC, I will prayerfully consider the needs of the ministry and the services I will receive and follow God's leading in supporting the ministry.

No person(s) will be denied services due to their inability to support this ministry.
